The Hevesy Medal Award 2020 was going to be presented at the 10th International Conference on Nuclear and Radiochemistry (NRC10) scheduled to be held in Brighton, U.K. during 2020 August 23–28 [1]. As many of you know, the NRC10 conference has been postponed to 2024 August in Brighton for various reasons including travel and gathering restrictions due to COVID-19.

We are pleased to announce that the Hevesy Medal Award 2020 (HMA-2020) will now be presented at the Twelfth International Conference on Methods and Applications of Radioanalytical Chemistry (MARC-XII) to be held in Kailua-Kona, Hawai'i, U.S.A. during 2021 March 21–26. The first call for papers for MARC-XII has already been posted [2].

The Call for nomination and guidelines as well as regulations of HMA-2020 have already been published [1]. One award will be given provided a worthy candidate is nominated by the scientists at large and subsequently selected by the Hevesy Medal Award Selection Panel 2020 (HMASP-2020). Nominations including all materials must be received in Halifax on or before 2020 October 09. It is highly desirable to send the complete nomination package in a single file, preferably in the.pdf format, by e-mail directly to Professor Dr. A. Chatt (chatt@dal.ca). There is no need to send paper

copies of the nomination package. An acknowledgement of the receipt of the package will be sent to the nominator. The decision of HMASP-2020 will be announced by 2020 November 20.

Further information on both the guidelines and the nomination can be obtained from: Professor Dr. A. Chatt, Chair of JRNC Board of the Hevesy Award, Department of Chemistry, Dalhousie University, 6274 Coburg Road, PO BOX 15000, Halifax, Nova Scotia, B3H 4R2, Canada. E-mail: chatt@dal.ca.
